

REPLACEMENT OEM HID BULBS

12 VOLT AUTOMOTIVE USE

FEATURES

- ▶ OEM-grade replacement bulbs
- ▶ Perfect alignment, high output
- ▶ True colors, with no variance
- ▶ Ceramic base for heat protection

INSTALLATION

- ▶ Reference your vehicle manual for instructions on accessing bulb.
- ▶ Unplug factory bulb from socket.
- ▶ Insert new HID bulb into socket. Enjoy!

TROUBLESHOOTING

- ▶ If the bulb does not light up, remove connector and flip 180° if possible and then reinstall.
- ▶ Test the bulb in the headlight on the opposite side of the vehicle to check if the issue is with the bulb or ballast.
- ▶ Contact Diode Dynamics directly for assistance: **314-205-3033** or **contact@diodedynamics.com**.
